DIED IN ENGLAND.

Sergt. Aubrey Townsend, of Hickman Dies of Influenza.

Just one month after his death, the parents of Aubrey Townsend received the sad news of their son's death, which occurred at a hospital in Brockport, England, Oct. 17th, Spanish influenza being given as the cause. He was on the same transport with Guy Lederidge, also a Hickman boy, and it is understood he took sick while on the ocean and was sent to the hospital immediately upon arrival at an English port.

Sergeant Townsend was a son of Mr. and Mrs. J. A. Townsend and was reared near Hickman. He was a student in the state university where he was taking a course in agriculture, when the Mexican trouble developed. Being a member of the State Guard, Aubrey went with his company to Mexico and staid there until Gen. Pershing cleared up the Mexican middle. He was discharged, came home and spent about one week. This was right on the verge of our trouble with Germany, and he immediately volunteered for service again. He was sent to Ft. Thomas for a short while and later assigned as instructor in the Signal Corps at Camp Shelby, Miss. He served in this capacity for more than a year; or until his unit was ordered overseas. In all, he has seen about four years service—and was every inch a soldier and gentleman. Fulton county had no finer young man than Sergt. Townsend, and his untimely end is indeed sad.

Besides his parents, he is survived by two sisters—Mrs. H. W. Whipple and Mrs. Albert Jones; and the following brothers—A. A. J. E., S. N., and Carl V. The latter is also in the service overseas and has not been heard from for several weeks.

The news of Aubrey's death is doubly sad, inasmuch as the war has ended and his loved ones were looking forward for his return home. But they have the consolation of knowing that he did his duty in the nation's crisis. He had his choice at the outset between following the colors and staying at home—and chose the former. It was the young men of his type that "made the world safe for Democracy." While he will not return, as family and friends had hoped, still his memory will be cherished and revered by all who knew him.

The loved ones have the sympathy of the entire community in their great loss and hour of grief.

Life is short, it is a fleeting day. Let us follow their course of duty. May shine through ages and show the way. To noble service, the life of beauty. Who enlist in the cause of right. You add a star to the crown of light.

Congressman Alben W. Barkley's majority in the First District was 9,033 over W. G. Howard, Republican.

A FINE LADY.

Mrs. Mollie Crostie Departs This Life at Age of 66 Years.

Mrs. Mollie, wife of W. S. Crostie, departed this life Thursday, November 14, after a long illness of tubercular trouble. Death occurred at the home of her son, Frank Crostie, of Moscow, at which place the couple were visiting.

Deceased was one of the pioneer citizens of Fulton county and one of our very best and noblest women. She was born in Tennessee some 66 years ago, but most of her life was spent in this county. She is survived by her venerable husband and four children. Three sons—Frank, Walter and Edward—are residents of this section, and she has one daughter, Mrs. W. L. Hall, at Poplar Grove, Ark. Further back than her oldest son can recollect, Mrs. Crostie has been affiliated with the Methodist church, her membership being at Harmony, and her life measured up to the highest Christian standard. Her many friends will be saddened by the news of her death; and the loss to her family is incalculable. Funeral services were conducted Friday afternoon by Rev. Holly, of Cayce, and the remains laid to rest at Harmony cemetery.

In a mention last week of the shortage in local attorneys, the name of Judge J. W. Roney was left out of our copy. He is one among others who cannot aid in filling out questionnaires—being Government Appeal agent, which disqualifies. Hence, only four attorneys, Davis, Amberg, Stenbridge and Moore, had to handle this work.

The ending of the war must be a terrible blow to Nashville merchants—many of whom are said to have been getting two or three prices for their goods by fleeing the powder plant workers. But Nashville wasn't the only town that made a profit out of patriotism. The woods are now full of millionaires.

President Wilson, in a proclamation given out Monday, named Thursday, November 28, as a day of Thanksgiving and prayer. He called on the people to give thanks for the victory that has been vouchsafed to the allied cause.

The Hickman Cash Grocery will retire from business at Hickman, and Mr. Chambers will return to Martin to look after the firm's store there.

Now that the war is over, we may look for some of the vacant business houses to fill up.

BOYS COMING HOME.

Will Begin Arriving in Ten Days. Wounded in France Next.

The paramount question with the families and friends of Fulton county boys both in the United States and in France—is when will the boys get home?

General March says demobilization will begin at once, and boys stationed in camps in this country will begin arriving home within the next ten days.

Demobilization will be in the following order: First, development battalions, 71 in number and comprising 98,190 men; second, conscientious objectors not under arrest; third, sniper production division; fourth, central training schools for officers, with some modifications; fifth, United States guards, now numbering 185,000 men; sixth, railway units; seventh, depot brigades; eighth, replacement units; ninth, combat divisions.

There are now in the United States 1,750,000 men under arms. General March said. Orders which will result in the immediate demobilization of 200,000 men are already issued, and these men will be at their homes in the next ten days.

When the reduction plan is under full operation, the chief of staff explained, 20,000 men each day will be released from the army.

Regarding the return of the troops in France, Gen. March said the order in which the divisions will be withdrawn is being left to Gen. Pershing. It is the intention of the War Department, however, as far as is practicable, to return each division to the locality from which the majority of its men came and to parade the division in adjacent cities, so that the people may have a chance to give fitting welcome.

Orders have been cabled to Gen. Pershing to begin the return at once of all casualties, sick and wounded who can be moved and convalescents. A steady stream of these men should begin immediately to cross the Atlantic. Camps at home will be cleared out to prepare for the return of the expeditionary forces and the General indicated that the process would be expedited. A unit of regular troops will be left at each camp to guard and police it in preparation for the arrival of the overseas units.

The question of final disposition of the great contingents is being studied, Gen. March said, and no decision has been reached. New construction already has been largely stopped.

Because of its unusual composition and the brilliant record at the front, Gen. March said, the Forty-second (Rainbow) Division will be given special consideration in the demobilization plans. The purpose of the department was not outlined specifically, but the impression was gained that the division will be paraded in Washington before it is mustered out.

Steps already have been taken toward the organization of the permanent army. All men now in the army have been, or will be, offered an honorable discharge from the emergency enlistment and an immediate re-enlistment in the new forces. A furlough of one month will be given as an incentive to re-enlistment.

It was announced that Congress would be asked to give each man discharged from the army, regardless of whether he re-enlists, a bonus of one month's salary. General March pointed out also that all soldiers are entitled under law to wear their uniforms for three months after discharge. This will make less difficult the immediate task of supplying civilian clothing to the demobilized army.

The return of commissioned personnel of the army to civilian life, Gen. March said, will be effected by dividing the present list of officers into three classes—those who desire commissions in the regular army, those who are willing to hold themselves available for future service as reserve officers and those who desire honorable discharges from the service.

Instructions have been issued to the army staff corps to carry out reduction in their commissioned and enlisted personnel lists, keeping pace with the reduction of the line forces.

Gen. Pershing has been directed to expedite complete casualty lists of his forces showing the names of every man killed or wounded or missing up to 11 a. m., Nov. 11. General March said he would not hazard an estimate as to the final total.

Replying to a question as to the number of prisoners in Germany, he said official records up to Oct. 15 showed 5,738.

Arrangements for bringing home the troops in France are being worked out rapidly from a shipping point of view, the shipping board announced Saturday in issuing a call for 5,000 volunteers to man the ships that will be used for that purpose. Men between 18 and 35 will be accepted under the call without regard to their draft rating or previous experience, and will be put aboard training ships at Boston, San Francisco, Seattle, New Orleans and Cleveland for six weeks' special training.

Although unwilling to concede the election of Edward D. Hays, Republican candidate for Congress, until all of the official returns are received, the members of the County Central Committee of the Democratic party, are of the opinion that Congressman Joe J. Russell, of Charleston, has been defeated in his race for re-election.—Charleston (Mo.) Courier.

ton county. This applies to volunteers, drafted men, soldiers, sailors, medical corps, chaplains, etc. It is hoped that these records will be supplemented by other information such as is contained in newspaper clippings, letters and which may be procured from other channels. The records which you can now make will be of much value in the years to come. We feel that you as residents of this county will take pride in making these records relating to our men in service as complete as possible, and in this way have an opportunity to render your State material aid.—BESS THOMPSON, County Historian.

"SOME PUMPKINS"—INDEED.

At this office may be seen the monster pumpkin, mentioned in these columns a short time ago, which was too large for the raiser, W. D. Benthall, to drive his wagon over when it loomed up in his way as he gathered corn. This pumpkin measures 5 feet, 11 1/2 inches in circumference, and probably weighs around 65 or 70 pounds. This, with another almost as large, has been donated to the Red Cross and will be sold at auction Saturday. In justice to Mr. Benthall, we will say that he explained to us that he was driving a low, iron-wheel wagon which would not pass over the pumpkin—and not a big farm wagon. The erroneous impression was left so his friends would have a little fun at Mr. Benthall's expense, and we are glad to vindicate him in the end.

NEW STAMPS BLUE.

New war saving stamps to be issued after January 1 will be blue instead of green and will bear a portrait of Benjamin Franklin, Secretary McAdoo has announced.

The same thrift stamps and thrift cards will be used, and exchanged for \$5 war saving stamps by the method now in use.

The 1918 series will mature January 1, 1924.

82,000 DIE OF FLU.

Influenza during the two months it was epidemic in the United States caused more than twice as many deaths as resulted from all causes among the members of the American Expeditionary Forces from the time the first American soldier landed overseas until the cessation of hostilities. Reports indicate more than 82,000 deaths from influenza and from 40,000 to 45,000 deaths among the American forces.

The price fixing committee of the war industries board has recommended that the present cotton fabric prices be continued until January 1, and after that date no further action will be taken by the committee.

TIME EXTENDED.

Ten More Days Allowed for Sending Overseas Xmas Packages.

Mrs. W. P. Skinner, who has charge of the distribution of cartons furnished by the government for sending Christmas packages to soldiers, advises us that the time of mailing such packages has been extended from November 20 to November 30th. This applies to those overseas.

She is also authorized to state that if you have not received overseas labels (which must be procured before a package can be mailed), by Nov. 20, the nearest of kin to a soldier may procure one from the local Red Cross by making affidavit to this effect. It must be remembered, however, that a soldier can receive only one box; and only one label will be issued for him. Apply at Red Cross rooms at court house Tuesday and Friday afternoons.

STARTS TOMORROW.

Demobilization of the men at Camp Zachary Taylor will probably begin tomorrow, as Gen. Austin has received orders from the War Department to reduce the 159th Depot Brigade to four training battalions, one of which is to be a negro organization.

It is expected that approximately 3,500 will be mustered out of this organization, which has handled the inflow and preliminary training of recruits.

A SUBSTANTIAL RAISE.

Railroad telegraphers' wages were advanced by order of Director General McAdoo Monday 13 cents an hour above the rate prevailing last January 1, with a minimum of 48 cents an hour retroactive to October 1. Eight hours, hereafter is to be considered a day's work and overtime will be paid at the rate of time and a half.

ATTENDING CONFERENCE.

Rev. R. C. Doughess, of the First Methodist church, and Rev. J. T. Simmons, of the West Hickman Chapel, left yesterday to attend the annual Methodist Conference at Jackson, Tenn. Both carry with them splendid reports of the church year just ending.

Mrs. Alice Lee Corum, wife of W. H. Corum, died Tuesday afternoon, November 12, at her home in Union City, death taking place suddenly.

18 Year Olds Must Fill Questionnaires Others Need Not.

The Fulton County Local Board has finally been officially advised that it will not be necessary for men over 37 years of age to fill out their questionnaires. If not already filled out—merely return them blank.

Boys 18 years old, however, will be required to fill out their questionnaires and return them as provided by the regulations. In due time they will be given their physical examinations—just as though the war had not ended.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

GREAT MID-WINTER FARM FESTIVAL

The Best Farmers From All Parts of Kentucky to Assemble At Lexington, January 28

The most successful and progressive men in all lines of business have their associations or other organizations which meet periodically to discuss topics related to their common welfare. Farmers are no exception to this rule for they have learned that it is to their advantage to have local, county, state and national organizations which have accomplished many things looking to the betterment of all. In Kentucky, the leading farmers and breeders have more or less naturally fallen into groups, according to the special line of farming in which they are most interested.

Among these organizations the following stand out prominently: Kentucky Corn Growers' Association, Kentucky Sheep Breeders' Association, State Horticultural Society, Kentucky Alfalfa Growers' Association, Kentucky Dairy Cattle Club, Horse, Jack and Mule Breeders' Association, Kentucky Poultry Growers' Association and the Kentucky Beekeepers' Association.

The various organizations co-operate with each other, holding their annual conventions at the same place and all during the same week. This general meeting of the Kentucky farmers and breeders takes place every winter at the Agricultural College of the University of Kentucky and is attended not only by the membership of the associations themselves, but also by nearly all of the best farmers in the State. Many of these organizations, such as the corn growers, dairymen, etc., have competitive shows of their products.

This great mid-winter farm festival has been set to meet on January 28, 29, 30 and 31st, at Lexington, and in spite of the war conditions promises to be the largest gathering since this movement began eight years ago, as farmers have long since learned that they can scarcely afford to miss it. Each farmers' organization will have its own program and the professors of the Agricultural College will assist with lectures and demonstrations.

NEW STYLES IN GIRLS' COATS

If the general effect of its style is good and the material of which it is made reliable, there is not much more to be required of the fall coat for young girls. The season calls for quiet colors—blue, green, brown along with blue, green and black and white mixtures. The convertible collar of fur or fur fabric and a narrow belt are almost invariably present.

SCHOOL NOTES.

Interesting School Items by Miss Virginia Luten, Co. Supt.

Since our schools have lost so much time on account of the influenza the First District Educational Association will not meet this year. No more extra holidays will be given this term. We must make every effort to do intensive work during the remainder of the term. Teachers are asked to give extra time to the Mathematics and English work in the grades so the pupils may cover enough work to be promoted at the end of the term. Some of the work in other subjects can be made up next year.

Since the last Legislature made elementary agriculture a part of the common school course, all applicants for teachers' certificates must be prepared for the examination on that subject. Those whose certificates have not expired will take examination on that subject only. We have a number of text books in the library on the subject and the normal schools will also offer special courses. Those expecting to teach next year should not overlook this.

The moonlight schools can be opened at any time now. See the teacher in your district. Books are furnished without cost by the Kentucky Illiteracy Commission. The Commission furnishes books for the lower grades only.

"CARRY ON"

Red Cross Supporters Asked to Help Unfortunate.

"Carry on" is the key-note of a Red Cross statement of policy just issued by the National Red Cross Headquarters in view of the apparent nearness of peace. This statement quoted below is probably the most important Red Cross document issued in recent months.

"On February 10th, last year, nearly six weeks before the United States declared war, the National Red Cross Headquarters advised its Chapter to prepare for war. That which has followed in the record of the Red Cross in helping to win the war and to relieve the suffering growing out of it, constitutes something of which every American citizen has a right to be proud. Every American Red Cross worker should feel a sense of gratitude in having had a share in it all.

"The moment now has come to prepare for peace. Actual peace may come at any moment; it may be deferred for some time. Until peace is really here there can be no relaxation in any Red Cross effort incident to active hostilities.

"But even with peace, let no one suppose that the work of the Red Cross is at an end. Millions of American boys are still under arms. Thousands of them are sick or wounded. Owing to shortage in shipping it may take a year or more to bring our boys home from France. But whatever the time, our protecting arms must be about them and their families over the whole period which must elapse before the normal life of peace can be resumed.

"Our soldiers and sailors are enlisted until the Commander-in-chief tells them there is no more work for them to do in the war. Let every Red Cross worker and member show our returning soldiers and sailors that to care for their health, welfare and happiness we are enlisted for no less a period than they are.

"The cessation of war will reveal a picture of misery such as the world has never seen before, especially in many countries which cannot help themselves. The American people will expect the Red Cross to continue to act as their agent in repairing broken spirits and broken bodies. Peace terms and peace conditions will determine how we may best minister to the vast stricken areas which have been harrowed by war and in this great act of mercy the heart and spirit of the American people must continue to be mobilized through the American Red Cross."

On behalf of the War Council, we accordingly ask each member of our splendid body of workers to bear in mind the solemn obligation which rests upon each of us to "carry on." We cannot abate one instant in our efforts or our spirit. There will be an abundance of work to do and specific advice will be given, but even at the moment of peace, let no Red Cross worker falter.

Our spirits must now call us to show that it is not the roar of cannon or the blood of our own alone that directs our activities, but that a great people will continue to respond greatly and freely to its obligation and opportunity to serve mankind.

It is our earnest hope that Hickman Chapter may stand second to none in its acts of mercy even in times of peace.

Hickman Chapter American Red Cross.
W. F. Reimberg, Chairman.

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your drugstore and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

Suit was filed in the Franklin Circuit Court Thursday by Attorney General H. Morris to collect from McCracken county \$4,000.30 for transportation to and maintenance of the House of Reform of youths between the ages of 10 and 16 years, not guilty of felonies. Under the act of 1914 counties must pay transportation and \$100 annually for such children.

LETTER FROM CORP. MORRIS.

Following is a letter from Corp. W. L. Morris (son of Mrs. Bob Morris, formerly Mrs. N. P. Harness of Hickman, also a nephew of Mayor H. P. Johnson of Cayce,) to Miss Eva Johnson, at Cayce. It was written in France:

I have often wondered why I never heard from you until I happened to think that I hadn't written you since we left the States, so I am going to try to make good what has been due.

Have traveled over most of France and some other places too numerous to mention. In the past few months and am now trying light housekeeping for a few days. Talk about your date and so many flights up, well our apartments are numbered by so many flights down and the lower we go the higher the rent. Have a real nice little apartment on second floor down and room is comfortably furnished considering the facilities. Electric lights when the current is on. Stoves to have a fire if the wood is handy, and nothing at all to bother us except the bad boys across the street who throw things at us occasionally. Even now while I am writing there is quite a rumper going on to our left and I suppose it is only a matter of a few minutes until it gets here, so I am writing in a hurry for shrapnel isn't very good for ink, for it might break the bottle or spill the ink on the table cloth. I forgot to tell you about our table cloth. Lots of the boys get papers from "home" and as everything in them is about a month old, even to us, we use them for table cloths and put the cartoons up. At meal time we take turns sitting by certain cartoons and when everybody has finished we change the paper. You see it is not everyone back home that enjoys a paper every meal!

I haven't been killed yet, and as far as I can see not likely to get that way any time soon. I started this letter on the eighth and am just finishing it, so that might explain the change in the ink. No, the shrapnel didn't come, neither did the table cloth, but I got tired of my boarding place mentioned above and have moved to a new place several "hikeometers" away. And believe me a hikeometer is quite some distance.

The band is playing sweet melodies on the street across the way and the evening seems to be in a joyful and forgiving mood—the main reason I am writing to you—and it doesn't seem possible that only a few days ago we were even afraid to talk above a whisper for fear of causing a barrage to fall about our ears. Oh, it is a queer old game after all and even exciting at times.

Well, my dear, I must bring this to a close some way, so I will ask you to give my best regards to all our relatives and friends in Cayce and tell them I can't write to all of them but often think of them and wonder what they are doing to win the war.

If you can find the time write me a long, newsy letter and tell me about all the people.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quart of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white from any drug store and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

LAI TO REST.

The funeral of Mrs. Clois Ledford Stone, conducted at 2:30 o'clock Friday afternoon by Rev. R. C. Douglass, of Hickman, and Rev. R. M. Walker, of Union City, was impressive and largely attended. The body of this splendid young woman was laid to rest at the city cemetery and the new-made grave literally covered with flowers—a silent testimonial of the high esteem and many friends of the deceased.

NOVEMBER 11, HOLIDAY.

A joint resolution introduced in the House Thursday by Representative Pat Harrison, of Mississippi, and referred to the committee on the Judiciary, provides for making November 11 of each year a national holiday, commemorative of the great victory of the allied governments and the United States over Germany.

We are convinced that every mile of a gravel road built and not oiled is about so much money thrown away. The four miles of pike leading out of Hickman is said to be the "bumpiest, roughest" piece of road in the county. The top dressing, for lack of oil, has literally blown away.

Middle Aged Women

Are Here Told the Best Remedy for Their Troubles.

Freemont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. Godden, 925 Napoleon St., Fremont, Ohio.

OVER THE TOP.

United War Work Drive in County
Something over \$11,500.

Chairman S. D. Stenbridge informs us that Fulton county folks have again shown their patriotism and generosity by over-subscribing their quota in the United War Work campaign. The county's allotment was slightly over \$9,100—with a supplementary request for \$15,000. At the close of the campaign yesterday, something over \$11,500 had been collected, with Fulton to hear from with two days' collection to report.

Considering the handicaps under which the committee worked, viz: The influenza epidemic and the closing of the war, Fulton county has done exceedingly well.

It will be operated on the same business basis as the Andrews Cash Store. Mr. Andrews also bought the Homer Provov business lot adjoining the Ross lot.

RED CROSS ELECTS.

At a meeting of the Red Cross Chapter last night, the following were elected as members of the Executive Committee:

Rev. E. L. Miley, H. L. Amberg, Mrs. Maggie Randle, Mrs. Alice Mcneese, C. G. McMurtry, Mrs. C. L. Walker, Mrs. T. T. Swayne, Mrs. L. McMakin, Mrs. W. P. Skinner and Rev. W. F. Remmenberg.

A meeting will be held at the court house next Monday afternoon, at 2 o'clock, for the purpose of electing officers.

PROBABLE WEDDING.

It is reported that Jack Madison and Miss Lovie Henderson have gone to Union City today to have the nuptial knot tied. Miss Henderson is a niece of Mrs. Tobe Jackson, with whom she has made her home since the cyclone, which wrecked Bondurant, Ky., and almost obliterated the Henderson family. Beautiful
Mount Desert

Beachcroft Path on Pickett Mountain.

THE bill before congress to create the Mount Desert National park upon Mount Desert Island, Maine, has called special attention to one of the most distinguished scenic places in the country. Already it is a national reservation, President Wilson having proclaimed it the Sieur de Monts National monument two years ago. The movement to promote it to national parkhood marks the appreciation of New England and the country generally resulting from the public attention devoted to this spot in consequence of the president's act.

Sieur de Monts is the only spot on the Atlantic coast where sea and mountain meet. Also it is typical in the best sense of the magnificence of the deciduous forests of the East; these are not elsewhere represented in the national scenic group. Mount Desert will be the only national park east of the Mississippi.

Many thousands of persons who do not identify this splendid group of seagirt mountains under its present title of Sieur de Monts will place it at once under the title proposed for the national park, as the granite heights which rise behind Bar Harbor and the other resorts of Mount Desert Island. The rounded summits of more than a dozen low mountains and the beautiful lakes which nestle at their feet are inclosed in the reservation. Nowhere else may the pleasures of seashore and rock-bound coast be combined with those of a wild mountainous wilderness.

Favorite Summer Resort.

For many years these mountains have lured summer visitors into their fastnesses. Their splendid forests of oak, pine, hemlock, chestnut, beech,

maple and other well-known trees of the Appalachian range, the luxuriance of their native shrubs, the luxuriance of their wild flowers, the charm of their wild valleys and lakes, and the stirring views of island-dotted sea from their slopes and summits bring visitors back again summer after summer. All of these mountains were in private possession; summer estates were shutting out large areas from public use. That is why a group of public-spirited men undertook a dozen years ago to acquire the mountains and present them to the nation. Some gave their estates, others gave money to buy holdings which could not be got by gift. The Mount Desert National park, when congress thus creates it, will stand also for the fine generosity and public spirit of New England.

Older Than the Rockies.

Summer visitors always are interested in the extreme age of these mountains. They are granite of the Archean age. They stood there, doubtless far loftier and perhaps serrated, before the now loftier Rockies and the Sierra Nevada even emerged from the archaic sea. These summits have been rounded in the intervening many millions of years by the frosts and the rains and the giant ice sheets which descended time and again from the north. The record of the glaciers may be read still upon their slopes.

The mountains are entirely surrounded by fine automobile roads along the shore which connect the seaside resorts. But in many places the cliffs spring straight from the ocean, whose waves lash and corrode their granite feet. A greater variety of sensations may be had from this combination of sea and mountain than is offered by any Western national park, however large and majestic.

View From Dry Mountain.

Fighting With Smoke.

Smoke is a valuable weapon in this war; it is extensively used on both sides to mask military and naval movements, and elaborate means have been devoted to throw up clouds of smoke. A very interesting use of smoke is described thus in Scientific American: "During a poisonous gas attack smoke is employed to ward off the fumes. Being considerably heavier than the poisonous gases generally employed, a barrage of smoke causes the dangerous fumes to pass over trenches and dugouts and to dissipate themselves in the higher regions."

Fans and Flags.

"I see a Texas inventor has patented an attachment for sewing machines to wave a fan as a person is sewing," remarked the lady.

"Well," replied friend husband, who was utilizing a strong nail in lieu of a suspender button. "I know a man who would wave a few dozen flags if a certain party would do a little sewing."

Huns Make Solder Having Little Tin

Owing to the scarcity of tin in Germany, efforts have been made to produce a solder containing none of that metal. What is pronounced an excellent substitute was made from 80 per cent lead, plus cadmium and tin, but it could not be used in sealing food cans because the lead, in contact with acids in fruits, produces salts that are poisonous. More recently, it is said, a nonpoisonous solder has been obtained by combining bismuth and cadmium, both of which metals are found in Germany, with other metals not revealed.—Popular Mechanics Magazine

FORCED TO LAND.

Run Out of Gasoline—Two Airplanes Spent Night Here.

Two airplanes landed in Julian Choate's field, just east of town, late Tuesday evening on account of being out of gasoline. They were enroute from Cairo to Memphis, and belonged to the Park Field squadron. Three aviators were with the machines—Lieut. Faulkner, Sergeant Bentley (mechanic) and Civilian Instructor Smith. The latter was an occupant of the ill fated machine that fell at Fulton, on this day the 4th Liberty Loan drive started, his companion being killed and Mr. Smith severely injured. In discussing the accident, he remarked, "I am just as close to Fulton now as I ever want to be again." A large crowd assembled yesterday morning to see the party leave, which occurred without any mishap. They were a clever lot—posing for their pictures, answering "fool questions" and humoring the crowd generally.

AMONG THE NEW FUR WRAPS

Among the new fur pieces there are many capes and many scarfs and likewise small belted coats. Here is a garment of lovely gray squirrel that is both cape and scarf and goes the length of a belt toward being a coat—as if trying to please everyone. There is a big collar in which to muffle the throat. Here are pockets, too, in case anybody asks for them. This is a new departure in fur wraps and it will probably find many admirers.

AVOID WASTE OF GASOLINE

Do Not Run Engine While Standing Still Unless Necessary—Make Use of Lean Mixture.

There are many ways to avoid gasoline waste. One is not to allow the engine to run idle, except when absolutely necessary. Another is to run your car on as lean a mixture as possible. The car may not accelerate as rapidly, and may cough a little when it is cold; but if you will be patient with it you will get much higher mileage. Every car has an economical speed, usually between 12 and 18 miles per hour. Try to drive at those speeds. Accelerate gradually, as this requires less gasoline than trying to reach top speed quickly. Anticipate your stops, close the throttle before you reach the stopping place, and coast to a standstill.

Keep your car running at top efficiency. This means keeping the motor free from carbon, as a carbonized motor consumes an excessive amount of fuel. Use a good grade of oil in the motor, and keep all moving parts well lubricated to reduce friction losses. Run the car on high as much as possible, as this is the economical speed. Keep the tires well inflated, as soft tires waste power. See that the brakes do not bind and cause friction when the car is running. Finally, use kerosene instead of gasoline for cleaning.—Milestones.

PROVIDE FOUR WHEEL DRIVE

Invention of Oklahoma Man Supplies Simple, Inexpensive and Efficient Mechanism.

In illustrating and describing the invention of B. J. Collins of Lenora, Okla., the Scientific American says: The object of the invention is to provide a simple, inexpensive and efficient

Plan View of Drive.

mechanism, for connecting the motor directly with the front wheels of motor vehicles to provide a four wheel drive. The spindles of the front wheels are connected to axle sections by universal joint connections and these axle sections are connected by a differential.

CAREFULLY INSPECT NEW CAR

Not Safe to Assume That All Parts Have Been Properly Lubricated Before Shipping.

It is not safe to assume that all parts of the car that has just been delivered to the new owner have been properly lubricated. It sometimes happens that grease cups have been left unfilled when the car was shipped and that wheel bearings, universals, steering gears, etc., have been overlooked. It is always well to go carefully over the lubricating system of the new car and see that it has its due allotment of lubricant.

DO NOT USE FIBER WASHERS

Action of Gasoline Has Tendency to Make Engine Run Sluggishly—Lead is Better.

Do not forget that fiber washers should never be used in the fuel line or in any part of the engine where the gasoline can get at it. The action of gasoline upon the fiber washer has a tendency to make the motor run sluggishly by forming a deposit of minute particles from the fiber. For this reason lead washers should always be used in the fuel line.

PIONEER CITIZEN.

Mrs. P. C. McMullin is Called to Rest at Age of 69 Years.

One of Fulton county's oldest citizens and most loved of ladies passed to her reward at one o'clock Monday morning, following a short illness of influenza. She was over 69 years old and her advanced age made her an easy victim of the dread disease. This good woman was Mrs. Emma, wife of P. C. McMullin, residing six miles southeast of Hickman. While the family residence is just over the line in Tennessee, her citizenship was in Kentucky; in fact, a great many years of her life was spent at the old home place in the vicinity of Brownsville, four miles south of town.

Mrs. McMullin was one of those gentle, lovable characters who grow beautiful with their advancing years, and was universally loved. For more than forty years she had been a member of the Brownsville Baptist church—and was steadfast in her faith. We are not mistaken, she was a charter member of that church. At the age of four years deceased was left an orphan, and was reared by a Mrs. Curtin of Lake county. She was schooled to the duties of the pioneer homemaker, taught to card, spin and weave. Even at the time of her death she possessed a loom, and was doubtless one of the few women of the county today who knew how to thread and handle these machines. While force of circumstances denied her the privilege of attending school, she was nevertheless an educated woman—well posted—due to her ambition and persistence. Just here we might state too that Mrs. McMullin (nee Clark) was a niece of the noted Davy Crockett, of the Alamo fame.

Deceased was born in Obion county, Tenn., June 15, 1849. In 1870 she was united in marriage with the companion who is left to mourn her loss.

Surviving her are the following children: One daughter, Mrs. C. A. Wilson; and five sons, Henry, James E., Calvin, Marshall and Gailther McMullin. Also 17 grandchildren.

Funeral services were conducted at the Brownsville church Tuesday afternoon by Rev. Daly, the pastor, but who resides at Martin, Tenn. A large concourse of old neighbors and friends were there to pay their last respects. The body was buried in the cemetery adjacent to the church.

The Ladies Aid Society of the First Methodist Church will have their annual Bazaar on Thursday, Dec. 12, at the home of Mrs. Sallie Hubbard. All lady members of the church are requested to donate something for the occasion.

Cayce Parrish left yesterday for Memphis. He will take charge of the office work of a big manufacturing company there at a nice salary.

Miss Lou Barry returned Sunday to Muscles Shoals, Ala., after a visit to Mrs. T. A. Ledford.

CARD OF THANKS.

We beg to express our sincere thanks and appreciation for the assistance rendered us during the illness and death of wife and our dear mother. Words are too many to utter, but not enough to express our feeling towards those untiring neighbors, attending physicians and the comforting words of Mrs. Holly. We also wish to express our thanks for the many beautiful floral offerings, May God bestow his richest blessings upon each and every one.—W. S. Crostie, husband, Ed. B. Walter and J. Frank Crostie, sons, Mrs. W. L. Hall, of Poplar Grove, Ark., daughter.

During the war 831 Norwegian ships have been sunk by German submarines. Thirty-three other vessels were damaged. In these attacks it is estimated that 1,120 lives were lost.

BUILDING UP OUR WOMANHOOD

Given Up to Die by Her Friends, a Young Lady Recovers Her Health and Increases Weight—15 Pounds.

A Powerful Nation Needs Strong Healthy Women.

A nation is no stronger than its women. Hence, it is the duty of every woman whether young, middle age, or in advanced life to preserve her health. If you are sick and suffering don't wait until tomorrow but seek relief at once—today. Tomorrow your illness may take a chronic turn.

There is a remedy for almost every ill. Thousands have found Peruna to be that remedy as did Miss Clara Lehr of 21 N. Gold St., Grand Rapids, Michigan. She writes a friend: "I don't need Peruna any more. I am all well after taking six bottles. I weighed ninety pounds before I started and was poor and weakly. I had such a cough and spitting all the time that I never expected to recover. My friends gave me up. I could eat nothing. Now I can eat and weigh 135 pounds. I most thankfully recommend Peruna to my friends."

Miss Lehr's letter is an inspiration, a message of hope to suffering women. It tells you that you too may be strong and well and vigorous. Peruna may be had in either liquid or tablet form. Ask your dealer. If you value health, do not accept a substitute. Dr. Hartman's World Famous Peruna Tonic is what you want. The Peruna Company, Dept. 79, Columbus, Ohio, also publish Dr. Hartman's Health Book. The book is free. Write for it. Your dealer will give you a Peruna Almanac.

MERCHANT DIES.

F. M. Provow, of West Hickman, Victim Pneumonia and Hiccough.

After two week's illness, Francis Marion Provow, a well known West Hickman grocerman, also former member of the city council, died at his home Saturday night at 11 o'clock. Deceased contracted pneumonia and the case was further aggravated by hiccough which could not be stopped and tended to lessen his vitality.

Mr. Provow was 41 years old and had resided in this city for more than twenty years. For the past ten years he conducted a grocery business in the west end of town, and was one of the leading business men of West Hickman. He was a native of Tennessee but more than half his life was spent in Kentucky. He was a member of a large family—while up to a year ago had been fortunately spared by the death angel, both parents were then living and all their children had reached maturity and had families. About six months ago, however, F. M. Provow, Sr., father of Marion, passed away. His mother still survives, as do also the following brothers, J. H.—W. H.—J. Q.—C. E. C. O.—H. L. and his wife (Formerly Miss Cora Bellon, of Tiptonville) and three children, Miss Lovie, Myra and Nellie Beth, are left to mourn his loss.

The writer has known Mr. Provow for more than a dozen years. We, with hundreds of others, liked him. He was not in the superlative category—not the best or the worst man we've known—just followed the middle road of life, doing the best he could; attending to his own business, doing when he could, a kindly act for neighbors and friends, lending his aid in the upbuilding of his town and community, pursuing his way in a modest manner. He was big hearted, broad-minded, honest, fearless fellow, as a neighbor, husband, father, friend and citizen, he will be missed.

Funeral services were conducted Monday afternoon by Rev. Douglass and the remains were taken in charge by the local lodge of Odd Fellows, of which he was a member, and laid to rest in the city cemetery with honors of the order.

His death is a great blow to his loved ones and a source of deep regret to his many friends.

POSTING OF STRAYS

Swayne Walker, Sheriff of Fulton County, Ky., who having been by me duly sworn, states that the following described animals: two black horse mules, one of which is about 3 years of age, 16 hands high and weight about 1000 pounds, and the other of which is about 4 years of age, 14½ hands high and weight about 950 pounds, were taken up by him as strays on No. 9 Lake Road in the lower bottom, west of the town of Hickman, same being a public highway in Fulton County, Kentucky, and he states that he has not changed, defaced or altered the marks or brands of said animals, and said animals having been brought before me the undersigned Judge of the Fulton County Court were appraised by me at \$200.00 and W. L. Hampton, a resident and housekeeper of Fulton County, Ky., being by me duly sworn states that said animals are of the value of \$200.00.

Witness my hand as Judge of the Fulton County Court, this 14th day of November, 1918.—E. J. STAHR, Judge Fulton County Court

A Copy Attest, Ella Monan, D.C. 4c.

The re-construction following the war period should not be looked upon as merely a rebuilding of the devastated countries of Europe. Right here at home are 101 neglected enterprises; projects abandoned for the war as a result of the scarcity of labor, material and railway embargoes. Now, that the war is over, it is safe to predict a resumption of general improvements, buildings, etc., on a large scale in the near future; a making up of the loss of nearly four years delay. There will be no shortage of jobs for the boys returning from the army. Work is going to be more plentiful than the present generation ever saw in peace times—with money abundant and wages good. The outlook for a period of great business activity and development is indeed propitious.

Mrs. Lola Hamby left Friday for Nashville, where she expects to make her future home.

GUARD AGAINST SORE THROAT.

Be on your guard right now against sore throat. The atmosphere is choked full of germs that cause sore throat, and if your system is the least bit charged up or weakened, which is likely at this time of year, cleanse at once with Vin Hepatica. Vin Hepatica not only cleanses your kidneys, liver, and bowels, but will restore your vitality, thus guarding you against cold, sore throat, pneumonia, and other maladies so prevalent this time of year. Come in and get a bottle now.—Helm & Ellison, Hickman, Ky.

More than twenty-five hundred American prisoners in German camps were released immediately by signing German armistice, according to late figures at the Red Cross. The number includes all Americans captured to November first. So far as we are able to ascertain, only one Hickman boy—Claude Jackson—had been taken prisoner. He was in the prison camp at Rastatt.

A Fulton county farmer put his hand in a mule's mouth to see how many teeth the mule had. The mule closed his mouth to see how many fingers the man had, and the curiosity of both man and mule was satisfied.

LODGE NOTES

Hickman Chapter No. 49, R. A. M., meets in stated convocation on the third Monday night of each month. Visiting companions are extended a cordial welcome.—J. C. Sexton, H. P., W. C. Speer, Sec'y.

Hickman Lodge No. 761, F. & A. M., meets in regular communication on the second and fourth Monday nights in each month. Visiting brothers always welcome.—H. C. Barrett, Master, W. F. Renneberg, Sec'y.

Elm Camp No. 3, Woodmen of the World, meets every Second and Fourth Tuesday evenings at 7:30, at their hall in the old city hall building. Visiting Woodmen cordially invited.—C. B. Parrish, Consul Commander, J. C. Ellison, Clerk.

Definite announcement is made that Camp Knox will be completed, although plans have been amended to provide buildings for four brigade units, or 40,000 men, instead of six units or 60,000 men. The work will be rushed to completion.

C. L. Smith, of Hales Point, was here Saturday and Sunday, enroute from Cairo, where he had taken his family after recovering from the flu.

The ladies of the Christian church will have a food sale next Wednesday afternoon.

WILSON WILL GO.

President Wilson Decides to Attend Peace Conference in France.

President Wilson will attend the opening session of the peace conference. This has been announced officially. He will go immediately after the convening of the regular session of Congress on December 2.

The official statement was issued at the White House. How long the President will remain abroad he himself probably cannot now say. The time for the convening of the peace conference has not yet been announced, but the general belief here is that it cannot be as early as late in December at the earliest. If such proves the case, the president will be absent from the country for at least a month and probably longer. It is suggested in Washington that the plenipotentiaries for the United States probably will be Secretary Lansing, Secretary Baker, Secretary Houston and Charles E. Hughes.

A. D. Allen, Vice-President of the Mengel Box Co., and T. S. Hamilton, Mechanical Engineer for that company, both of Louisville, spent Wednesday here, going to Hales Point Wednesday night on the Str. Seminole.

H. C. Amberg has returned to Memphis after a few days' visit with relatives here. He was the guest of his nephew, H. L. Amberg, while here.

D. P. Leibovitz returned Saturday from a few days' visit with home folks at Lewisport, Ky.

F. T. Randle and wife returned last week from a pleasant visit in Chicago.

NEW DEMONSTRATOR

Miss Margaret Wilson Takes Place of Miss Tracy, Resigned.

Fulton county's new County Lady Demonstrator—Miss Margaret Wilson, succeeding Miss Caroline Tracy, who resigned—has arrived in the county to take up her work.

Miss Wilson is a graduate of the University of Cincinnati and of Simmons College of Boston and is fitted in every way to make a success of the work. Miss Wilson will begin work immediately. Previously she had charge of the Home Demonstration work in the city of Louisville.

Her name, at least, is very democratic—being the same as that of the President's daughter.

Nineteen distilleries, the property of the Kentucky Distilleries & Warehouse Company, were sold at public auction Monday for a very small part of their original value. C. M. Reynolds and wife returned last week from Jeffersonville, Ind.

THE BLUE TRIANGLE ON BABEL'S TOWER

Lucia pulled her shawl further across her face and shrank down on the station platform bench as the solid blue figure suddenly bent down over her. Excitedly she shook her head in answer to the question that she could not understand. She searched through her red plaid waist for the paper that Tony had folded into a little square and given to her. The writing on it, in the English that Tony knew and she did not, told the house where she lived. Tony had explained it all to her that morning. He had told it to her again at the station. Then, waving his hat, he had disappeared into the train with the rest of the men, and Lucia had been left standing outside the gate. There were crowds of women pushing all about her. They were weeping. So Lucia wept, too.

Lucia had been betrothed to Tony in the old country. Five years before, with a long ticket for New York pinned into his inside pocket, her lover had left her. He wrote in every letter that he had made her a home in the new country. Her dowry money had finally provided her own transportation, and for two months Tony and she had been married. Then he had drawn a ticket with a number on it, and this morning he had gone off to war.

To the policeman Lucia told all these things in rapid Italian. But the policeman only talked back to her as rapidly in a language that was not Italian. She followed him dumbly to headquarters. An hour later a woman wearing American clothes gently began talking to her in beautiful Italian.

Italian Lucia was only one of thousands of foreign-born women, Syrians, Italians, Armenians, Russians, Lithuanians, Polish, who, when the draft called their men folk to the American colors, asked in helpless confusion what it was all about. When would their men be back? What did people mean when they told them they would receive money through the mail? Where could they find work that they knew how to do? Was there no one who could explain it all to them in their own language?

The Y. W. C. A. was ready to offer assistance, but it would be of no value to offer it in English. Consequently it had to supply a corps of women who could talk to the foreign-born woman at her own door in the language that she was used to hearing in the home. To teach her English was as essential a factor in her Americanization as to find her a job. Therefore the war council of the Y. W. C. A. set out to find her English.

A year before the war began in Europe, the leaders of the Young Women's Christian association foresaw just such a situation, and made ready to meet it. They studied the needs of the immigrant. They trained skilled American social workers to become familiar with the home habits and to speak the language of the Lett and the Hungarian and the Greek and the other foreign mothers who brought babies and bundles over from Ellis Island to Battery park.

The organization into which this experiment has developed was named by the Y. W. C. A. national board, "The International Institute for Young Women." In terms which these women can understand, it is teaching the foreign-born how to sew and cook and care for the baby.

To girls like Italian Lucia, who confusedly lingered on the station platforms when the draft trains pulled out, the Y. W. C. A. is giving direct assistance. Educated European women, appointed to the regular staff of workers at the camp Y. W. C. A. Hostess Houses are able to talk to the drafted men in their own language, assist them in writing letters home, and in arranging furloughs and little visits to the camp.

"The Home Information Service for Foreign Families of Enlisted Men" is doing practical relief work for the wives and mothers. The purpose of the board is to help the women folk left behind to understand where their boys are and how they are being treated; how they need home support and cheer, how to send them comforts, and to keep pace themselves by learning English and other things, so that when the boys come home they will not find their women still very un-American and out of sympathy with them.

Food conservation bulletins have been translated into 18 or 19 languages. At the factories and munition plants interpreters are available for the non-English speaking women by whom the real war industries of the country are being largely carried on. In 25 important cities International Institute Bureaus are training American and foreign women for full time social service work with foreigners. Twenty-four trained women are employed on the national and district field staff of the Y. W. C. A. On June 15 there were 105 trained women working at Americanization.

When more than 75,000 Chicago men filled out their blue cards for the September 12 draft, Gang Luo Wong appeared at one precinct bringing with him Mrs. Gang Wong and the three children. All five wished to register. The enrolling clerk explained, but the Gang Luo Wongs make many broken Chinese remonstrances before the master of the family was induced to sign a card without his wife. Mrs. Wong could not speak English. What would his family do in a strange country if Gang Luo went to war? All over the United States Chinese and Poles and Serbs were asking the same question. It is to just such needs that the War Council of the Y. W. C. A. is organized to give assistance.

GREAT REVIVAL.

Splendid Interest Being Manifested in Ham-Ramsay Meeting.

The Ham-Ramsay revival is again in full swing and drawing large crowds. The services are daily growing in interest and the drive gathering momentum. Assisting Rev. Ham and his co-workers are three congregations: the Christian, Methodist and Baptist churches of Hickman. The first where the services are being held, is friends and relatives in Memphis. She they may have more room, plans have been made to continue the meeting at the new Ward garage building, corner Clinton and Kentucky streets, beginning tomorrow night.

Week-day services 10:00 a. m. and 7:30 p. m. Sunday services at 11:00 a. m. and 7:30 p. m., and a special service for men only at 3:00 o'clock in the afternoon.

Don't miss these services; you will enjoy the old time gospel sermons and the music made by the chorals of 200 voices. Everyone invited.

TEACHERS RESIGN.

Miss Era Hewitt, teacher in the Graves school, resigned her position Friday to accept a place in Washington, D. C., for which place she departed Saturday. The board of directors was fortunate in immediately filling her place, securing the services of Mrs. Daughitt, who formerly taught at Bondurant. Incidentally, it might be mentioned that her husband has been on the front—in the trenches for some time.

Artie Williams is reported very ill with pneumonia, which resulted from flu. His wife also has the flu.

R. C. Price, of Louisville, is here on business this week with the Mengel Box Company.

Frank Borris returned Monday morning from two days' visit in Louisville.

Col. C. L. Walker was in Dyersburg and Hales Point Friday on business.

Miss Virginia Crain has recovered from a ten days' illness of the flu.

Col. C. L. Walker was in Cairo and Mound City, Tuesday, on business.

D. B. Bryant has returned to Nashville, after a few days here.

Sand Salamy is here from Camp Taylor on a short furlough.

Miss Mary Berendes has been on the sick list.

PIG SHOW.

John Wheeler Captures Blue Ribbon Shaw Has Best Brood Sow.

In spite of the rain the Pig Show held at Hickman, Saturday, was a success.

As only eight gilts were brought in, only two classes were made. Class 1 represented greatest gain.

In this class Wheeler's Best Bet Register Number 655234 captured the blue ribbon (cash \$4.00) making a gain of 186 pounds in 150 days.

Wheeler's Best Bet is owned by John Wheeler, son of Mr. L. R. Wheeler, Hickman R. F. D.

Maurice Boudurant's registered gilt, "Sweet Clover," captured the red ribbon (\$3.00) with a gain of 164 pounds.

Truman Boudurant's gilt, "Turks Proud Violet," received the white ribbon (\$2.00) making a gain of 152 lbs. in 150 days.

In Class 2—Best gilt for brood sow, Arthur Shaw's gilt, State Line, took first place with a cash prize of \$3.00. Henry Maddox took second place. Everett Clark third, and Andrew Bacon fourth.

The boys are making plans to breed their gilts to a registered boar and put on an auction sale with pigs from the litters next fall.

Better Than a Fish Story.

This narrative comes from Nalrobt, in British East Africa. A hunter met a most magnificent lion almost face to face. With a terrible roar the beast sprang at the man but missed his aim by jumping two feet too high. Disappointed, it dashed away into the woods. The next day a party set out to track the beast down. At length they came upon it in an open space in the jungle. The beast was practicing low jumps.

The Eager Life.

Whenever a process of life communicates an eagerness to him who lives it, there the life becomes genuinely significant. Sometimes the eagerness is more knit up with the motor activities, sometimes with the perceptions, sometimes with the imagination, sometimes with reflective thought. But, wherever it is found, there is the zest, the tingle, the excitement of reality; and there is "importance" in the only real and positive sense in which importance ever anywhere can be.—William Jones.

For thread, needles, pins, buttons, elastic and lots of other things in notions see Bettersworth.

HOME CIRCLE COLUMN.

Every habitation is not a home. Alas! No! We have seen a beautiful house, richly appointed, supplied with every luxury, whose beautiful tapestried walls and lovely carpets, all flower-strewn, handsome furniture, exquisite china, sparkling cut glass and silver, beautiful flower yards, made a picture of lovely beauty, and would suggest a real "fairy land," everything wealth, skill and taste could command, whose inmates were highly educated and considered very refined, and yet that was no home, and the Christian father of that family would go from a daintily spread breakfast table; and a cross, ill-tempered silk robed wife, and not one kind word, not a single ray of sunshine to chase away the gloom of a busy business man's long days. The boys were glad to get off to school out of the reach of mother's scolding tongue, and the beautiful "fashionable" daughter fretted the day away over the novels that didn't turn out like she wanted them to, and dresses that didn't hang just right, and spent the evening and a goodly part of the night dancing and saying silly nothings to a silly young man. Why was this home so unhappy? Because the mother was not in sympathy with the father and children, and the children were uncongenial with each other. So wealth alone cannot make a happy home.

See here, boys! Whatever you try to do, do it the very best you can; do it better than it was ever done before. Don't yield to the temptation to slight your work. And above all things, do what is right every time. Never mind the scoff and leer of others, but go ahead and do what is right. Be brave about it, too. Everyone hates a coward. And another thing, don't be afraid of doing right for fear you will make enemies. Enemies are as necessary to success as vinegar is to pickles. Don't above all things be a hypocrite. The thief may steal your property, but the hypocrite betrays one's confidence and only waits an opportunity to stab him in the back. If you have a mind of your own, don't be afraid to exercise your opinion, and

if you feel that it is right, stand by it. People will talk and fools will turn grindstones for others to sharpen their axes on. Think for yourself. Lay your course of action in accordance with the idea that you will some day be a man and called upon to take an active part in life's great battles. Don't imagine for a moment that you can please everybody, not yourself. Few people care for you and you must care for yourself or be left in the cold.

There is a class of laborers who never strike and seldom complain. They get up at five o'clock in the morning and never go to bed until ten or eleven at night. They work without ceasing during the whole of the time and get no other pay than food and clothing. They understand something of every branch of economy from finance to cooking; though harnessed by a hundred responsibilities, though driven and worried, though humiliated and looked down upon, they never revolt and they cannot organize for their own protection; not even sickness relieves them from their post. No sacrifice is deemed too great for them to make, and no incompetency in any branch of their work is excused. No essays and poems are written in tribute to their steadfastness. They are the housekeeping wives of the majority of the people, who work, live and die for their loved ones.

SURRENDER NAVY.

Germans Hand Over Fighting Fleet to Allied Commanders.

In accordance with the armistice terms, Germany has surrendered a greater portion of her once magnificent fleet, the formal handing-over to the Allied fleet commanders taking place on the high seas.

The following vessels were surrendered:

Battleships—Kaiser, Kaiserin, Koenig, Albert, Kronprinz, Wilhelm, Prince Regent Luitpold, Markgraf, Grosser Kurfuerst, Bayern, Konig and Friedrich der Grosse.

Battle Cruisers—Hindenburg, Derfflinger, Seydlitz, Moltke and Von der Tann.

Light Cruisers—Bremen, Brummer, Frankfurt, Koeln, Dresden and Emden.

The German cruiser Dresden was sunk off the Falkland Islands by the British, under Admiral Sturdee, while the Emden was sunk in the Indian Ocean after it had raided shipping in the far east. It is probable that old ships have been given the names of the ships sunk or that new ships have been built to replace them.

This is the greatest naval surrender in the world's history.

The defendant swore he went to Johnson's barn to get one of his mules that Mr. Johnson had been using. As the horse was not there, he took one of Johnson's instead, but had not returned it because he heard that Johnson had borrowed a Winchester and was going to use it on him. According to his testimony, it was merely an exchange of horses.

Remember it is a little over a month before Christmas, and the merchants who have any holiday goods to sell had better advertise them and get rid of them as quickly as possible, so as not to have any left over, because in all probability they can be bought cheaper before the holidays of another year. Goods that have been bought high should be sold while the prices are high, and this can't be done without advertising them, so as to close them out before the holidays are passed.

INCREASED DEMAND.

Cotton Should Not be Sacrificed on Account of Futures Fluctuations.

Attention is called to the statement made by Mr. Charles J. Brand, Chairman of the Committee on Cotton Distribution and Chief of the Bureau of Markets of the Department of Agriculture, on November 14, announcing the Committee's action requiring the suspension of speculative "short" selling of cotton on the exchanges. It will be noted that the Cotton Committee, reflecting the views of the Department of Agriculture as well as of the cotton experts constituting the Committee, confidently expect an increase in volume of exports and consumption of cotton.

"The signing of the armistice brings us suddenly to the threshold of the reconstruction era. Pending developments are of the utmost importance to the entire cotton world.

"The consequences of unfounded rumors that tend to promote vicious speculative activity and cause unjustified demoralization must be avoided as far as possible. In order that harmful price fluctuations may be checked the Committee on Cotton Distribution has ordered all speculative short selling on the New York and New Orleans Cotton Exchanges stopped, and, to make this order thoroughly effective, has required that no selling orders except in liquidation of long contracts be executed from any foreign country.

"The stoppage of sinkings by U-boats, the monthly increase in new ship tonnage and the releasing of the fleets of the Allies, together with the freeing of space previously used in sending munitions to Europe, will mean a large increase in available tonnage for cotton exports.

"The world's requirements of cotton to meet its increasing demands for clothing will henceforth be on a continuously ascending scale. Based on reports to this committee from the various foreign countries, we estimate their requirements and probable exports of cotton under present conditions to be over two million bales in excess of last season's takings. "Europe is almost denuded of cotton goods. The potential buying power of the world which will be aided and hastened by the establishment of the necessary credits will quickly assert itself."

The most wonderful clock in the world is at St. Petersburg. It has 95 faces. It indicates simultaneously the time of day at thirty points on the earth's surface, besides the movement of the earth around the sun, the phases of the moon, the signs of the zodiac, the passage over the meridian of more than fifty stars of the northern hemisphere, and the date according to the Gregorian, Greek, Mussulman and Hebrew calendars. It took two years to put the works together.

When the Pilgrims landed, December 22, 1620, they named the place Plymouth, the name of the town from which they last sailed in England. "One hundred and two brave souls." The leaders were Bradford and Brewster, and the hardy soldier Miles Standish. They had previously landed on Cape Cod, and afterward on an island in Plymouth harbor, but finally settled at Plymouth, where the Puritan state and church in America was begun.

STEADIER HOG MARKETS PLANNED

Hog Producers and Packers Confer With Representatives of the Food Administration and Agricultural Department and Adopt New Plan of Regulation.

In accordance with the policy of the Food Administration since its foundation to consult representative men in the agricultural industry on occasions of importance to special branches of the industry, on October 24 there was convened in Washington a meeting of the Live Stock Subcommittee of the Agricultural Advisory Board and the special members representing the swine industry to consider the situation in the hog market.

The conference lasted for three days, and during this time met with the executive committee of the fifty packing firms participating in foreign orders for pork products and with the members of the Food Administration directing foreign pork purchases.

The conclusions of the conference were as follows:

The entire marketing situation has so changed since the September joint conference as to necessitate an entire alteration in the plans of price stabilization. The current peace talk has alarmed the holders of corn, and there has been a price decline of from 25 cents to 40 cents per bushel. The fact that the accumulations of low priced corn in the Argentine and South Africa would, upon the advent of peace and liberated shipping, become available to the European market has created a great deal of apprehension on the part of corn holders. This decline has spread fear among swine growers that a similar reduction in the prices of hogs would naturally follow. Moreover, the lower range of corn prices would, if incorporated in a 13-to-1 ratio, obviously result in a continuously falling price for live hogs. In view of these changed conditions many swine producers anticipated lower prices and as a result rushed their hogs to market in large numbers, and this overshipment has added to and aggravated the decline.

The information of the Department of Agriculture indicates that the supply of hogs has increased about 8 per cent, while the highest unofficial estimate does not exceed 15 per cent. Increased production over last year. On the other hand, the arrival of hogs during the last three weeks in the seven great markets has been 27 per cent. more than last year, during the corresponding period, demonstrating the unusually heavy marketing of the available supply. In the face of the excessive receipts some packers have not maintained the price agreed last month. On the other hand, many of the packers have paid over the price offered to them in an endeavor to maintain the agreed price. The result in any event has been a failure to maintain the October price basis determined upon at the September conference and undertaken by the packers. Another factor contributing to the break in prices during the month has been the influenza epidemic; it has sharply curtailed consumption of pork products and temporarily decreased the labor staff of the packers about 25 per cent.

The exports of 120,000,000 pounds of pork products for October compared with about 52,000,000 pounds in October a year ago, and the export orders placeable by the Food Administration for November, amount to 170,000,000 pounds as contrasted with the lesser exports of 98,000,000 for November, 1917. The increased demands of the allies are continuing, and are in themselves proof of the necessity for the large production for which the Food Administration asked. The increase in export demands appears to be amply sufficient to take up the increase in hog production, but unfavorable market conditions existing in October afford no fair index of the aggregate supply and demand.

It must be evident that the enormous shortage in fats in the Central Empires and neutral countries would immediately upon peace result in additional demands for pork products which, on top of the heavy shipments to the Allies, would tend materially to increase the American exports, inasmuch as no considerable reservoir of supplies exists outside of the United States. It seems probable that the present prospective supplies would be inadequate to meet this world demand with the return to peace. So far as it is possible to interpret this fact, it appears that there should be even a stronger demand for pork products after the war, and therefore any alarm of hog producers as to the effect of peace is unwarranted by the outlook.

In the light of these circumstances it is the conclusion of the conference that attempts to hold the price of hogs to the price of corn may work out to the disadvantage of pork producers. It is the conclusion that any interpretation of the formula should be a broad gauged policy applied over a long period. It is the opinion of the conference that in substitution of the previous plans of stabilization the Live Stock Subcommittee of the Agricultural Advisory Board, together with the specially invited swine representatives, should accept the invitation of the Food Administration to join with the Administration and the packers in determining the prices at which controlled export orders are to be placed. This will be regularly done. The influence of these orders will be directed to the maintenance of the common object—namely, the stabilization of the price of live hogs so as to secure as far as it is possible fair returns to the

producer and the insurance of an adequate future supply.

These foreign orders are placed upon the basis of cost of hogs to the packers.

As the result of long negotiations between this body and the Packers' Committee, representing the 45 to 50 packers participating in foreign orders, together with the Allied buyers, all under the Chairmanship of the Food Administration, the following undertaking has been given by the packers:

In view of the undertakings on the part of the Food Administration with regard to the co-ordinated purchases of pork products, covered in the attached, it is agreed that the packers participating in these orders will undertake not to purchase hogs for less than the following agreed minimums for the month of November, that is a daily minimum of \$17.50 per hundred pounds on average of packers' droves, excluding throw-outs. "Throw-outs" to be defined as pigs under 150 pounds, stags, boars, thin sows and skips. Further, that no hogs of any kind shall be bought, except throw-outs, at less than \$16.50 per hundred pounds. The average of packers' droves to be construed as the average of the total sales in the market of all hogs for a given day. All the above to be based on Chicago.

We agree that a committee shall be appointed by the Food Administration to check the daily operations in the various markets with a view to supervision and demonstration of the carrying out of the above.

The ability of the packers to carry out this arrangement will depend on there being a normal marketing of hogs based upon the proportionate increase over the receipts of last year. The increase in production appears to be a maximum of about 15 per cent, and we can handle such an increase.

If the producers of hogs should, as they have in the past few weeks, prematurely market hogs in such increasing numbers over the above it is entirely beyond the ability of the packers to maintain these minimums, and therefore we must have the co-operation of the producer himself to maintain these results. It is a physical impossibility for the capacity of the packing houses to handle a similar over-flood of hogs and to find a market for the output. The packers are anxious to co-operate with the producers in maintaining a stabilization of price and to see that producers receive a fair price for their products.

(Signed) THOS. E. WILSON,
Chairman Packers' Committee.

The plan embodied above was adopted by the conference.

The Food Administrator has appointed a committee, comprising Mr. Thomas E. Wilson, chairman of the Packers' Committee; Mr. Everett Brown, president of the Chicago Livestock Exchange; Major Roy of the Food Administration, Mr. Louis D. Hall of the Bureau of Markets, to undertake the supervision of the execution of the plan in the various markets. Commission men are asked to co-operate in carrying out the plan embodied in the packers' agreement. It must be evident that offers by commission men to sell hogs below the minimum established above is not fair, either to the producer or the participating packers. Mr. Brown has undertaken on behalf of the commission men in the United States that they will loyally support the plan.

It is believed by the conference that this new plan, based as it is upon a positive minimum basis, will bring better results to the producer than average prices for the month. It does not limit top prices and should narrow the margins necessary to country buyers in more variable markets. It is believed that the plan should work out close to \$18 average.

Swine producers of the country will contribute to their own interest by not flooding the market, for it must be evident that if an excessive over percentage of hogs is marketed in any one month price stabilization and control cannot succeed, and it is certain that producers themselves can contribute materially to the efforts of the conference if they will do their marketing in as normal a way as possible.

The whole situation as existing at present demands a frank and explicit assurance from the conference represented—namely, that every possible effort will be made to maintain a live hog price commensurate with swine production costs and reasonable selling values in execution of the declared policy of the Food Administration to use every agency in its control to secure justice to the farmer.

The stabilization methods adopted for November represent the best efforts of the conference, concurred by the Food Administration and
